# META ADS STRATEGY - V4

## House of Bunkar x PULA Bazaar | Diwali Collection 2026

| Campaign Detail | Plan |
|---|---|
| **Event** | PULA Bazaar Season 49 - Dussehra Special Exhibition |
| **Dates** | 10 & 11 October 2026 |
| **Venue** | Mahalaxmi Lawns, Karvenagar, Pune |
| **Timing** | 11:00 AM - 9:00 PM |
| **Stall** | House of Bunkar - Stall No. 85 |
| **Media budget** | Rs 300/day \| recommended launch 8 October |

**EXECUTIVE RECOMMENDATION**

Run one local Awareness campaign in Meta Ads Manager. Target women aged 35-55 around Mahalaxmi Lawns, starting with a 10-12 km radius. Keep the Rs 300/day budget concentrated in one ad set and no more than two creatives. Do not split this exhibition budget into separate prospecting, retargeting and lookalike campaigns. Build those audiences now and use them in future exhibitions when the budget and learning window are larger.

### Campaign Snapshot

| Item | Recommended Setup |
|---|---|
| **Primary objective** | Awareness - reach-focused delivery |
| **Audience** | Women only \| Age 35-55 |
| **Location** | Mahalaxmi Lawns venue pin + 10-12 km radius |
| **Expansion rule** | Widen toward 15 km only if delivery/reach is too limited |
| **Placements** | Facebook + Instagram Feed, Stories and Reels |
| **Ads** | 1 static event poster + 1 vertical 9:16 Story/Reel |
| **Primary KPI** | Reach, frequency, CPM and exhibition footfall |
| **Secondary KPI** | Profile visits, saves/shares, WhatsApp or directions activity |

### Purpose of this plan

This is a short-window footfall campaign, not an e-commerce conversion campaign. The strategy therefore prioritizes local visibility, repeated exposure and clear event information over a complex funnel.

# 1. Campaign Objective & Budget Logic

## Best campaign type: Awareness / Reach

The business goal is to make nearby women aware that House of Bunkar is exhibiting at PULA Bazaar and to create enough repetition that the date, venue and Stall 85 are remembered before the weekend.

| Campaign Type | Decision | Why |
|---|---|---|
| Awareness / Reach | BEST | Best fit for local footfall, a short event window and a low daily budget. |
| Engagement / Messages | SECONDARY | Use only when WhatsApp conversations are the main KPI. |
| Traffic | NOT PRIMARY | Can generate clicks, but Meta may optimize for clicks rather than actual visits. |
| Leads | NO | Unnecessary form friction for a two-day walk-in exhibition. |
| Sales | NO | No reliable direct purchase event or conversion history for the exhibition. |
| Boost Post | AVOID | Ads Manager gives better control over audience, schedule, placements and reporting. |

### BUDGET CONTROL

If the client wants an approximate Rs 300/day operating budget, use Rs 300/day. If the total media spend must stay close to Rs 1,200 for 8-11 October, use a lifetime budget of Rs 1,200 across the scheduled period. Avoid creating three Rs 100/day ad sets - the budget becomes too fragmented.

## Recommended Schedule

| Date | Budget | Role |
|---|---|---|
| 8 Oct | Rs 300 | Launch early; “This weekend” message; build first reach. |
| 9 Oct | Rs 300 | Reminder + urgency; keep audience and campaign stable. |
| 10 Oct | Rs 300 | Event Day 1; organic “Today” Stories plus paid master ad. |
| 11 Oct | Rs 300 | Final day; organic “Last Day” Story/Reel; stop paid campaign around 6-7 PM. |
| Total | Approx. Rs 1,200 | Media spend before applicable platform taxes/charges. |

Do not over-edit the campaign after launch. With only a few days available, constant audience and creative changes can reduce useful learning. Make changes only for clear delivery problems or a materially stronger creative.

# 2. Audience & Geographic Targeting

**CORE AUDIENCE**

Women aged 35-55 within the local event radius. For this first Rs 300/day exhibition test, age + gender + location should do most of the targeting work. Keep interest targeting light so the audience does not become too small.

| Dimension | V4 Setting | Reason |
|---|---|---|
| Gender | Women only | Hard client requirement. |
| Age | 35-55 | Requested shopper profile for the test. |
| Location | Venue pin around Mahalaxmi Lawns | Use the venue as the centre of the audience. |
| Radius | Start 10-12 km | Strong concentration for a small budget. |
| 15 km | Expansion only | Use if estimated audience or delivery is too limited. |
| Language | Leave blank | Avoid excluding Marathi/Hindi/English users based on app language. |
| Existing customers | Include | Past buyers are valuable for event footfall; do not exclude them. |
| Audience expansion | Control carefully | If an Advantage+ audience setup can expand outside women 35-55, use manual/original controls or verify that the hard filters remain enforced before publishing. |

## Detailed Targeting - Optional Signals

Start broad inside the hard demographic and geographic filters. If a later test needs more guidance, use only a few interests that are actually available in the account.

- Sarees / Sari / Silk / Banarasi saree / Handloom
- Indian clothing / Ethnic wear / Traditional clothing / Women's clothing
- Boutiques / Jewellery / Festive shopping / Diwali where available

**Do not stack all interests together; over-layering can make a local audience too narrow.**

## Location Coverage Guide

| Priority Band | Key Localities |
|---|---|
| **Tier 1: 0-7 km** | Karve Nagar, Kothrud, Erandwane, Deccan, Prabhat Road, Law College Road, Dattawadi, Hingne, Anand Nagar, Warje |
| **Tier 2: 7-12 km** | Shivajinagar, Model Colony, Aundh, Pashan, Bavdhan, Baner, Parvati, Sahakar Nagar, Bibwewadi, Dhankawadi, Vadgaon Budruk, Dhayari, Narhe |
| **Tier 3: 12-15 km** | Balewadi, Camp, Koregaon Park, Kalyani Nagar, Katraj and outer pockets depending on the actual radius map |

*For the actual ad set, use the venue pin + radius rather than manually adding every locality/PIN. This list is a planning and coverage checklist.*

## 3. Exact Ads Manager Build

| Field | Recommended Setting |
|---|---|
| **Campaign name** | HOB_PULA_S49_Oct2026_AWR_W35-55_KarveNagar |
| **Buying type** | Auction |
| **Objective** | Awareness |
| **Performance goal** | Maximize reach / closest current reach-focused option |
| **Special ad category** | None |
| **Campaign budget** | One ad set; Rs 300/day or Rs 1,200 lifetime if total control is preferred |
| **Ad set name** | W35-55_10-12KM_MahalaxmiLawns |
| **Start** | 8 Oct morning, immediately after approvals |
| **End** | 11 Oct around 6-7 PM; exhibition closes at 9 PM |
| **Gender** | Women only |
| **Age** | 35-55 |
| **Language** | Blank / all relevant languages |
| **Location** | Mahalaxmi Lawns, 100 FT DP Road, near Rajaram Bridge, Karvenagar, Pune 411052 |
| **Radius** | 10-12 km initially; 15 km only if necessary |
| **Detailed targeting** | Broad local audience first; light interest signals only if needed |
| **Placements** | Manual focus on Facebook + Instagram Feed, Stories and Reels |
| **Ads** | Maximum two: static poster + 9:16 vertical version |

**PLACEMENT NOTE**

Keep spend concentrated on Facebook and Instagram. Audience Network and other low-intent placements are not necessary for this small local exhibition test. Every selected placement must keep the date, venue and Stall 85 readable.

# 4. Placements & Creative Strategy

## Placement Execution

| Placement | Use | Execution |
|---|---|---|
| Instagram Feed | YES | Use 4:5 or readable portrait crop. |
| Instagram Stories | YES | Use native 9:16; strong for urgency and reminders. |
| Instagram Reels | YES | Best with 6-10 second motion/vertical asset. |
| Facebook Feed | YES | Important for women 35-55; keep copy direct and local. |
| Facebook Stories/Reels | YES | Reuse the 9:16 vertical version. |
| Messenger / Audience Network | NO | Keep budget concentrated on core FB/IG event surfaces. |

## Current Poster Review

### Current creative - what already works

- Date, venue, timing and Stall 85 are visible.
- The model + product display immediately communicates the category and festive mood.
- “Exclusive Diwali Collection 2026” gives a clear seasonal reason to visit.
- The visual style suits a premium Banarasi saree and suit collection.

### Mandatory correction before final paid version

- Place the PULA Bazaar logo on the top-left and House of Bunkar branding on the top-right.
- Add a small readable “Free Entry | Valet Parking” line or badge.
- Keep the core message readable in 2-3 seconds: Diwali Collection | 10-11 Oct | Karvenagar | Stall 85.
- Do not overload the artwork with phone/handle text; keep secondary details in the caption/CTA.

## Creative System

Ad 1: corrected master poster for Feed. Ad 2: native 9:16 Story/Reel, 6-10 seconds, with large safe-zone text. Organic reminders: 8 Oct “This weekend” -> 9 Oct “Tomorrow” -> 10 Oct “Today” -> 11 Oct “Last day”.

Story/Reel sequence: Pune - This Weekend -> Exclusive Banarasi Sarees & Suits -> 10-11 Oct | Mahalaxmi Lawns | Stall 85 -> 11 AM-9 PM | Free Entry | Valet Parking -> House of Bunkar x PULA Bazaar.

# 5. Ad Copy, Organic Posting & Tagging

## Recommended Paid Primary Text

**PAID COPY - SHORT VERSION**

Pune, see you this weekend! Discover House of Bunkar's Diwali Best Sellers 2026 - Banarasi sarees, festive suits, rich silks and traditional weaves at PULA Bazaar Season 49.

10th & 11th October | 11 AM-9 PM
Mahalaxmi Lawns, Karvenagar, Pune
Stall No. 85 | Free Entry | Valet Parking

Visit us and explore the festive collection in person.

| Ad Element | Recommended |
|---|---|
| **Headline** | Exclusive Diwali Collection 2026 - Stall 85 |
| **Description** | PULA Bazaar \| 10-11 Oct \| Karvenagar, Pune |
| **CTA preference** | Get Directions if available; otherwise Learn More or Send WhatsApp Message |
| **Destination** | Google Maps pin or WhatsApp, depending on CTA setup |

## Organic Caption - Product Detail

Use the fuller product list organically because people who already follow or discover the page can spend more time reading. Include Rangkaat Sarees, Jamawaar Sarees, Mashru Silk Sarees, Bandhej Silk Sarees, Kashi Darshan Suits and Sarees, Jamdani Suits, Linen Zari Suits and Banarasi Silk Suits.

## Tagging & Collaboration Instructions

- Instagram: tag PULA Bazaar and Sonia Konjeti in every relevant post and Story. Verify the exact Instagram handles before publishing.
- Facebook: tag Pula Ladies and PULA Bazaar on every relevant post where tagging is available.
- Post or cross-post on PULA Bazaar's page wherever page access/approval has been provided.
- Use Instagram Collab on the main event post if PULA accepts it; this can consolidate engagement on the shared post.
- Add the location “Mahalaxmi Lawns, Karvenagar, Pune” to event posts and Stories.
- Tag House of Bunkar consistently and keep the PULA brand visible in the creative, not only in the caption.

## Suggested Organic Hashtags

#HouseOfBunkar #PulaBazaar #PulaBazaarSeason49 #BanarasiSarees #BanarasiSuits #PuneShopping #PuneExhibition #Karvenagar #DiwaliCollection2026 #FestiveShopping

# 6. Retargeting, Website & Lookalike Strategy

**FOR THIS EXHIBITION**

Build the audiences now if the accounts, Pixel/CAPI and customer data are available, but do not split the current Rs 300/day into separate retargeting and lookalike ad sets. The current campaign should remain one concentrated local awareness campaign.

| Audience | Build | Use |
|---|---|---|
| Instagram engagers | People who engaged with @houseofbunkar; up to 365 days if available | Future warm-event audience |
| Facebook Page engagers | People who engaged with the House of Bunkar Page | Future warm audience |
| Video viewers | People who watched 25% / 50%+ of relevant Reels or videos | Useful after more video volume is built |
| Website visitors | All visitors 180 days; product viewers 30-90 days if Pixel/CAPI is installed | Future retargeting |
| Customer list | Past buyers / enquiries with valid permission and lawful basis | Strong retargeting + lookalike source |
| WhatsApp / messaging | Eligible messaging engagement audience options where available | Warm high-intent pool |

## Lookalike Plan for Future Exhibitions

- Best source: actual purchasers, repeat customers or high-quality enquiries - not simply all followers.
- Start with a 1% lookalike if the source audience is large and clean enough.
- For a Pune exhibition, still apply the local event geography at ad-set level; do not allow a lookalike to become an all-India campaign.
- Do not use a weak or tiny seed audience merely to create a lookalike. First-party quality matters more than having the feature switched on.

## Future Budget Split - When Budget Is Larger

| Bucket | Share | Audience |
|---|---|---|
| Local prospecting | 60-70% | Women in exhibition radius |
| Warm retargeting | 20-25% | IG/FB engagers, website visitors, video viewers, customers |
| 1% lookalike test | 10-15% | High-quality source; still restricted to exhibition geography |

*Practical scaling trigger: consider this multi-audience structure once the event budget is meaningfully higher (for example around Rs 800-1,000+/day) and there is enough time to learn before the exhibition.*

# 7. Measurement, Optimization & Decision Rules

| Metric | Role | How to Use It |
|---|---|---|
| Reach | Primary | How many unique nearby women saw the campaign. |
| Frequency | Primary | Whether the audience received repeated reminders. |
| CPM | Efficiency | Benchmark future exhibitions against this first test. |
| Profile visits | Secondary | Brand interest after seeing the event. |
| Saves / shares | Secondary | Useful event-reminder intent. |
| WhatsApp clicks/messages | Secondary | Track if WhatsApp is connected as CTA. |
| Directions / Maps activity | Secondary | Use trackable link where practical. |
| Walk-ins / sales | Business result | Ask customers how they heard about the exhibition and log Meta/PULA/other. |

## Optimization Rules

- Do not make major changes in the first few hours unless there is a clear setup error.
- If the campaign is spending but reach is unusually low, first check location, age/gender restrictions and placement delivery.
- If frequency rises quickly while unique reach stalls, widen from around 10 km toward 12-15 km before adding many interests.
- If one creative has clearly stronger saves, shares, profile activity or messages, keep it active and pause the weaker creative.
- Do not judge an Awareness campaign only on link clicks. The final test is exhibition footfall, assisted sales and quality of customer response.

## Simple Event Attribution

| Step | Action |
|---|---|
| **At stall** | Ask: “How did you hear about us?” |
| **Record** | Meta ad / PULA Bazaar page / Instagram organic / Facebook organic / Friend / Existing customer / Other |
| **Sales log** | Add bill value if the visitor converts to a purchase |
| **Post-event** | Calculate attributed walk-ins, attributed sales and cost per attributed visit |

### SUCCESS CRITERIA FOR THIS FIRST TEST

The goal is not to prove perfect ROAS from one Rs 300/day event. The purpose is to establish a repeatable benchmark: local reach, frequency, response, attributed walk-ins and sales. Use this baseline to decide the budget and audience structure for the next exhibition.

## 8. Launch Checklist

| # | Action |
|---|---|
| 1 | Final master artwork: PULA Bazaar logo top-left; House of Bunkar top-right. |
| 2 | Add Free Entry + Valet Parking without overcrowding the design. |
| 3 | Create 9:16 Story/Reel version with large, readable event text. |
| 4 | Confirm House of Bunkar Facebook Page + Instagram account are linked in Meta Business Suite. |
| 5 | Confirm billing method and the intended Rs 300/day / Rs 1,200 total media budget. |
| 6 | Create one Awareness campaign, one ad set, maximum two ads. |
| 7 | Set Women 35-55 and venue radius 10-12 km; verify no unwanted audience expansion. |
| 8 | Select Facebook + Instagram Feed, Stories and Reels. |
| 9 | Publish organic event post on House of Bunkar and PULA surfaces where access/approval is available. |
| 10 | Tag PULA Bazaar + Sonia Konjeti on Instagram; Pula Ladies + PULA Bazaar on Facebook. |
| 11 | Post Stories daily: 8 Oct “This weekend”, 9 Oct “Tomorrow”, 10 Oct “Today”, 11 Oct “Last day”. |
| 12 | Check delivery next morning: spend, reach, frequency, placement split, comments/messages. |
| 13 | During event, track customer source and sales at Stall 85. |
| 14 | After event, create a short performance summary and decide whether to scale the next exhibition. |

**FINAL V4 DECISION**

For PULA Bazaar Season 49, keep the paid setup intentionally simple: one local Awareness campaign, women 35-55, 10-12 km around Mahalaxmi Lawns, Rs 300/day, one ad set and up to two creatives. Build warm audiences and lookalikes in the background for future exhibitions, but do not dilute this event's limited budget by splitting it across multiple funnels.

### Client Posting Instruction Summary

- Post every approved exhibition creative on House of Bunkar channels.
- Tag PULA Bazaar and Sonia Konjeti on Instagram posts and Stories.
- Tag Pula Ladies and PULA Bazaar on Facebook posts.
- Post/cross-post to PULA Bazaar's page wherever their social-media team has provided access/approval.
- Keep the event location and Stall 85 visible in every time-sensitive reminder.

# 9. Appendix - Locality & PIN Reference

*Use this as a planning/reference list for approximately 10-15 km around Karvenagar. For the actual Meta ad set, the venue pin + radius remains the preferred targeting method because locality and postcode options can vary inside Ads Manager.*

| Locality | PIN | Locality | PIN | Locality | PIN |
|---|---|---|---|---|---|
| Karve Nagar | 411052 | Hingne | 411052 | Kothrud | 411038 |
| Erandwane | 411038 | Mayur Colony | 411038 | Ideal Colony | 411038 |
| Paud Road | 411038 | Warje | 411058 | Anand Nagar | 411051 |
| Sinhagad Road | 411051 | Vadgaon Budruk | 411041 | Dhayari | 411041 |
| Narhe | 411041 | Deccan Gymkhana | 411004 | Prabhat Road | 411004 |
| Shivajinagar | 411005 | Model Colony | 411016 | Sadashiv Peth | 411030 |
| Navi Peth | 411030 | Parvati | 411009 | Sahakar Nagar | 411009 |
| Bibwewadi | 411037 | Gultekdi / Market Yard | 411037 | Dhankawadi | 411043 |
| Katraj | 411046 | Aundh | 411007 | Pashan | 411021 |
| Bavdhan | 411021 | Baner | 411045 | Balewadi | 411045 |
| Camp | 411001 | Koregaon Park | 411001 | Kalyani Nagar | 411006 |

## Important Setup Notes

- Meta interface labels and available targeting options can change by account and region; use the closest current equivalent while preserving the strategy intent.
- For customer-list Custom Audiences, upload only data the business has the right and lawful basis to use.
- Keep important Story/Reel text away from top/bottom interface areas so date, venue and Stall 85 stay readable.
- If a selected audience setting can expand outside the agreed women 35-55 local audience, turn that expansion off or use the available manual/original audience option.
- The media budget is separate from Growthik Media professional fees and any third-party charges unless specifically agreed otherwise.
