Prepared for: House of Bunkar

Date: 07 October 2026

Campaign Detail	Final / Current Setup
Event	PULA Bazaar - Season 49 | Dussehra Special Exhibition
Dates	10 & 11 October 2026
Venue	Mahalaxmi Lawns, 100 FT DP Road, near Rajaram Bridge, Karvenagar, Pune - 411052
Timing	11:00 AM - 9:00 PM
Stall	House of Bunkar - Stall No. 85
Media budget	₹300/day | one ad set
Meta status at latest capture	Preparing

Executive Summary

EXECUTIVE STATUS

The campaign build is substantially complete in Meta Ads Manager: one Awareness campaign, one ad set and one existing-post video ad. The current objective is maximum local reach among women aged 35-55 around Karve Nagar, with a ₹300/day budget, a 3 impressions / 7 days cap and a Send Message CTA. Final QA should focus on hard audience controls, the WhatsApp identity mismatch and placement-safe creative adaptation.

Final Campaign Architecture

Level	Name / Setting
Campaign	HOB_PULA_Awareness_10-11Oct2026_KarveNagar_W35-55
Ad Set	PULA_W35-55_KarveNagar_10-12KM_₹300
Ad	HOB_PULA_EventPoster_Stall85_V1
Structure	1 Campaign → 1 Ad Set → 1 Ad
Objective	Awareness
Performance goal	Maximize reach of ads

This V6 document updates the earlier strategy with the actual Meta campaign build, current creative/video preview, messaging flow, placement previews and final pre-launch controls.

1. Campaign-Level Configuration

Meta Field	Current / Final Setting	V6 Decision
Campaign name	HOB_PULA_Awareness_10-11Oct2026_KarveNagar_W35-55	Keep
Buying type	Auction	Keep
Campaign objective	Awareness	Correct for local footfall awareness
Budget strategy	Ad set budget	Correct for one-ad-set structure
Advantage+ campaign controls	Shown as enabled in current interface	Accept; budget remains controlled at ad set
Campaign frequency control	Off	Fine; frequency is controlled at ad set
A/B test	Off	Correct at ₹300/day
Special Ad Categories	None declared	Correct for this retail exhibition
Campaign recommendation status	All recommended settings applied	No action required

BUDGET LOGIC

Keep the full ₹300/day in one ad set. Do not split this small event budget into separate cold, retargeting and lookalike ad sets. The purpose of this test is to build a clean benchmark for local reach, frequency, messages and attributed walk-ins.

Operating Window

Date	Suggested Spend	Execution
8 Oct	₹300	Launch / stabilize delivery; “this weekend” reminder
9 Oct	₹300	Reminder; avoid structural edits unless delivery is broken
10 Oct	₹300	Event Day 1; paid reach + organic “today” content
11 Oct	₹300	Final day; organic urgency; end paid delivery before event close if desired

Approximate four-day media spend: ₹1,200 before platform taxes/charges, subject to the actual start/end time and Meta delivery.

2. Ad Set - Audience, Frequency & Local Geography

Field	Final Intended Setup
Ad set name	PULA_W35-55_KarveNagar_10-12KM_₹300
Performance goal	Maximize reach of ads
Facebook Page	House of Bunkar
Budget	₹300/day
Gender	Women only
Age	35-55
Languages	All / leave blank
Core geography	Mahalaxmi Lawns / Karve Nagar local catchment
Radius logic	10-12 km primary; expand toward 15 km only if delivery is genuinely constrained
Frequency cap	3 impressions every 7 days
Dynamic creative	Off

AUDIENCE QA FLAG

Meta currently shows an estimated audience of approximately 1.6M-1.8M in the captured ad-set summary. That is large for a ₹300/day hyper-local exhibition test. Before relying on the final build, reconfirm that India and any “Pune +25 mi” location are not still active and that Women 35-55 is enforced as a hard control rather than only an Advantage+ suggestion.

Priority Local Catchment

Priority	Localities to Cover
Tier 1 - closest	Karve Nagar, Kothrud, Erandwane, Warje / Warje Malwadi, Deccan Gymkhana, Prabhat Road, Bhandarkar Road, Dattawadi, Anand Nagar
Tier 2 - strong nearby	Shivajinagar, Model Colony, Pashan, Bavdhan, Aundh, Sinhagad Road, Navi Peth, Parvati, Sahakar Nagar, Bibwewadi
Tier 3 - optional edge	Baner, Balewadi, Dhankawadi, Vadgaon Budruk, Dhayari, Narhe, Katraj, Camp, Koregaon Park, Kalyani Nagar - only if the actual radius/map supports them

Preferred execution: use the venue pin + radius as the controlling geography. Use locality names as a coverage check, not as a reason to broaden the campaign beyond the intended catchment.

3. Locality & PIN Reference

Planning reference for the Karve Nagar catchment. Meta location options can vary by account; the venue pin + radius remains the preferred control.

Locality	PIN	Locality	PIN	Locality	PIN
Karve Nagar	411052	Hingne	411052	Kothrud	411038
Erandwane	411038	Mayur Colony	411038	Ideal Colony	411038
Paud Road	411038	Warje	411058	Anand Nagar	411051
Sinhagad Road	411051	Vadgaon Budruk	411041	Dhayari	411041
Narhe	411041	Deccan Gymkhana	411004	Prabhat Road	411004
Shivajinagar	411005	Model Colony	411016	Sadashiv Peth	411030
Navi Peth	411030	Parvati	411009	Sahakar Nagar	411009
Bibwewadi	411037	Gultekdi / Market Yard	411037	Dhankawadi	411043
Katraj	411046	Aundh	411007	Pashan	411021
Bavdhan	411021	Baner	411045	Balewadi	411045
Camp	411001	Koregaon Park	411001	Kalyani Nagar	411006

Detailed Targeting Approach

KEEP IT BROAD WITHIN THE HARD FILTERS

For this first ₹300/day event test, age + gender + geography should do most of the work. Do not stack multiple “AND” interest layers. If Meta requires or benefits from suggestions, use a light OR-group such as Saree, Silk, Ethnic Wear, Indian Clothing, Women’s Clothing, Handloom, Fashion and Shopping - only where those interests are actually available in the account.

- Do not add household-income filters in the first test.
- Do not force separate lookalike or retargeting ad sets at ₹300/day.
- Existing customers can remain eligible; they are valuable event visitors.
- If Advantage+ Audience can expand beyond the agreed demographic, use hard controls / original audience options where available.

4. Ad-Level Build - Identity, Existing Post & Messaging

Field	Current Setup	V6 QA
Ad name	HOB_PULA_EventPoster_Stall85_V1	Keep
Partnership ad	Off	Correct
Facebook identity	House of Bunkar	Correct
Instagram identity	@houseofbunkar	Correct
Threads	Use Instagram account	Accept
Ad setup	Use existing post	Keep if placement preview remains healthy
Selected Instagram post	Post ID 18587154259068213 - 7 Oct 2026	Correct selected event post
CTA	Send message	Appropriate secondary action for enquiries
Messenger destination	House of Bunkar	Active
Instagram destination	@houseofbunkar	Active
WhatsApp destination	+91 86001 34546	Correct HOB customer number

CRITICAL IDENTITY CHECK

The Identity section in the current Meta screen still shows the WhatsApp identity as growthikmedia.com / +91 80557 54054, while the actual messaging destination is House of Bunkar / +91 86001 34546. If Meta allows the identity number to be changed, switch it to the House of Bunkar number before final delivery so the client-facing identity is consistent.

Destination / Click Behaviour

The ad summary currently displays “Website” in the Destination section, while the live CTA and conversation setup are configured for “Send message.” Use the shared “Show Ad” preview to confirm the actual tap behaviour on the major placements before relying on website tracking or UTMs.

- If a tap opens Messenger / Instagram / WhatsApp as intended, website UTMs are not required.
- If a website destination is intentionally used later, add a real House of Bunkar / event URL - not a Growthik Media URL.
- Do not create a website destination only to satisfy a preview field if the real user journey is messaging / event awareness.

5. Creative, Video & Copy

Core House of Bunkar x PULA Bazaar event creative supplied for the campaign.

Creative Element	Current / Approved Direction
Format in Meta preview	Video / animated execution - 0:47 shown in Mobile Feed preview
Core message	Celebrating Banarasi Heritage this Diwali
Event callout	10 & 11 October 2026 | 11 AM-9 PM | Stall No. 85
Venue	Mahalaxmi Lawns, 100 FT DP Road, near Rajaram Bridge, Karvenagar, Pune - 411052
Visitor benefit	Free Entry | Valet Parking
Products	Rangkaat, Jamawaar, Mashru Silk, Bandhej Silk, Kashi Darshan, Jamdani, Linen Zari and Banarasi Silk suits/sarees
Branding	House of Bunkar + PULA Bazaar both visible

Primary Text - Final Paid Version

RECOMMENDED CONCISE AD COPY

✨ Celebrating Banarasi Heritage this Diwali ✨

Explore Rangkaat, Jamawaar, Mashru Silk, Bandhej Silk, Kashi Darshan, Jamdani, Linen Zari and Banarasi Silk sarees & suits.

📅 10th & 11th October 2026 | ⏰ 11 AM-9 PM
🛍️ House of Bunkar - Stall No. 85
📍 Mahalaxmi Lawns, 100 FT DP Road, near Rajaram Bridge, Karvenagar, Pune - 411052
🎫 Free Entry | 🚗 Valet Parking Available

Save the date and visit Stall 85 to experience authentic Banarasi weaves for the festive season. ✨

Ad Text Fields

Field	Recommended
Headline	Diwali Bestsellers at PULA Bazaar ✨
Description	10-11 Oct | Karvenagar | Stall No. 85
CTA	Send message
Hashtags	#HouseOfBunkar #BanarasiSarees #BanarasiSilk #Diwali2026 #PuneShopping #PuneExhibition #KarveNagar #PulaBazaar

Organic Posting & Tagging

- Instagram: tag PULA Bazaar and Sonia Konjeti in the main post and Stories; verify the exact handles before publishing.
- Facebook: tag Pula Ladies and PULA Bazaar wherever tagging is available.
- Cross-post to PULA Bazaar surfaces where their social-media team has approved access.
- Use Mahalaxmi Lawns, Karvenagar, Pune as the event location and keep Stall No. 85 visible in every reminder.

6. Advantage+ Creative Enhancements - Current State & QA

Enhancement	Current State	V6 Recommendation
Add details to ad layout	OFF	Keep OFF
Video touch-ups	ON	Review preview; keep only if product colours / logos are not altered
Text improvements	ON	Prefer OFF for fixed event copy if Meta changes date / venue emphasis
Adapt multi-image format	ON	Review carefully; disable if the single event creative is being reformatted awkwardly
Relevant comments	ON	Keep ON if comments are appropriate and moderated
Enhance CTA	ON	Accept if it does not overpower the artwork
Add video effects	ON	Review; disable if effects distract from date, venue or Stall 85

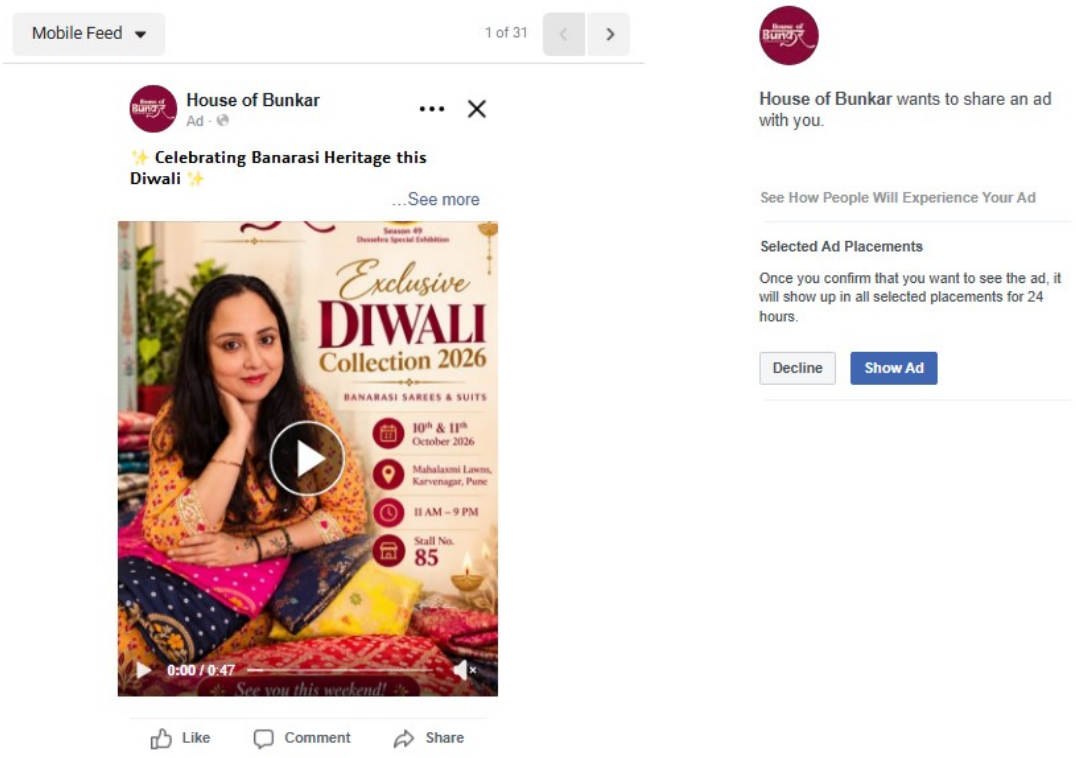

CREATIVE QA RULE

For this event, clarity beats novelty. The date, venue, time, Stall 85 and brand logos must remain readable in every placement. If an automated enhancement crops, recolours, overlays or animates those elements in a way that reduces clarity, switch that enhancement off even if Meta recommends it.

Current Conversation Template

Element	Approved Text
Greeting	Hi! 👋 Welcome to House of Bunkar ✨ We'll be at PULA Bazaar - Season 49 on 10th & 11th October 2026 at Mahalaxmi Lawns, Karvenagar, Pune - Stall No. 85. How can we help you today?
FAQ 1	Can I see the collection before visiting?
Auto answer 1	Yes. Please message us here or on WhatsApp +91 86001 34546 and we can share available collection details.
FAQ 2	Where is the exhibition?
Auto answer 2	Mahalaxmi Lawns, Karvenagar, Pune - Stall No. 85.

7. Shared Ad Preview - Video / Mobile Feed

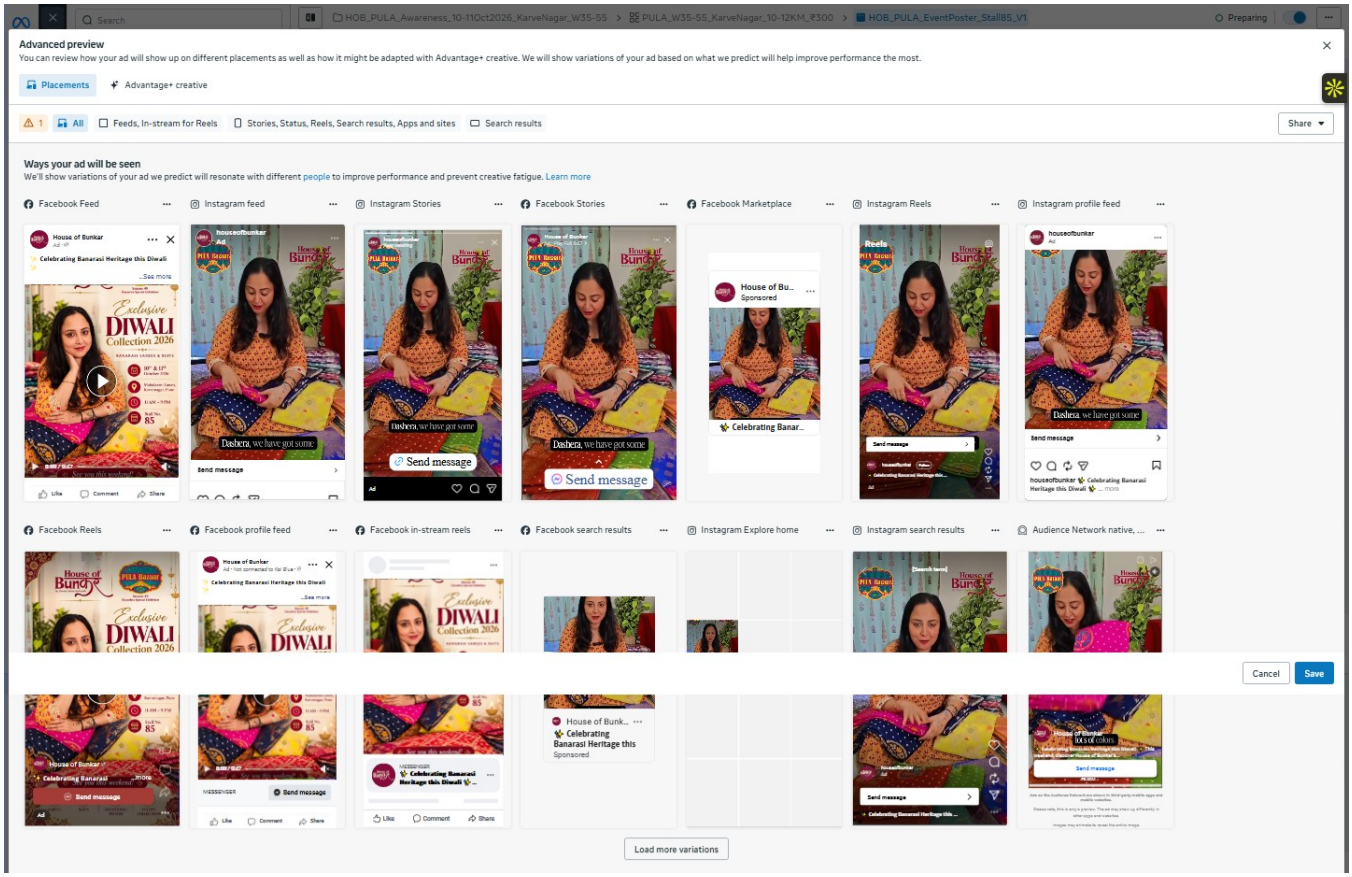

Shared Meta ad preview. The mobile feed preview shows the House of Bunkar ad with a play button and 0:47 video duration.

Preview Check	Result
Brand identity	House of Bunkar displays correctly in the ad header
Creative visibility	Event creative is clearly visible in Mobile Feed
Video state	Play button visible; 0:47 duration shown
Primary copy	Opening “Celebrating Banarasi Heritage this Diwali” visible above the creative
Share preview	Meta shared preview can be shown for selected placements for 24 hours

PREVIEW CONCLUSION

The shared preview is usable and the main event information is visible. The first frame should continue to communicate “Diwali Collection 2026”, date, Karvenagar and Stall 85 without requiring the viewer to watch the full 47 seconds.

8. Placement Preview & Delivery Surfaces

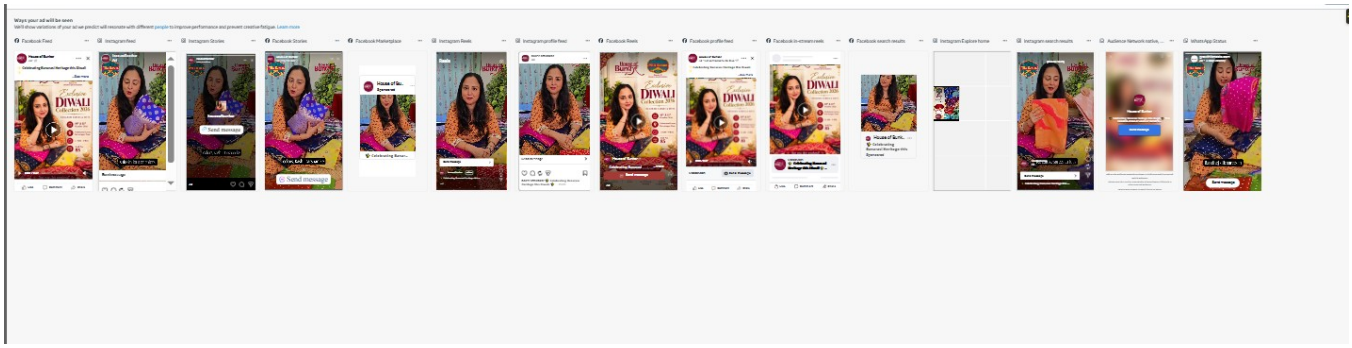

Meta Advanced Preview showing the creative adapted across key Facebook and Instagram placements.

Visible preview surfaces include Facebook Feed, Instagram Feed, Instagram Stories, Facebook Stories, Facebook Marketplace, Instagram Reels, Instagram profile feed, Facebook Reels, Facebook profile feed, Facebook in-stream reels, Facebook search results, Instagram Explore home, Instagram search results, Audience Network and additional eligible surfaces.

Placement Decision

Placement Group	V6 Guidance
Facebook Feed	Priority - strong fit for women 35-55 and event detail reading
Instagram Feed	Priority - product / brand visual discovery
Instagram Stories & Reels	Priority - urgency, reminders and full-screen creative
Facebook Stories & Reels	Keep if 9:16 crop remains readable
Marketplace / Search / Profile feeds	Allow under Advantage+ if they deliver inexpensive reach; monitor spend
Audience Network / other surfaces	Do not optimize around them; exclude only if they take material budget without useful response
WhatsApp Status	Keep only if the creative and CTA preview correctly

9. All-Placement Visual QA

Placement strip supplied from the Meta Advanced Preview. The same campaign creative is shown across multiple feed, story, reel, search, marketplace and messaging surfaces.

WHAT THE PREVIEW CONFIRMS

The earlier “link field required” issue has been substantially resolved: the ad is now rendering across the major placements rather than failing across the entire placement set. Continue to check the final warning count before launch, but the current screenshots show working previews for the core surfaces that matter most.

Placement-Safe Creative Checklist

- Keep House of Bunkar and PULA Bazaar logos inside safe zones.
- Make 10 & 11 Oct, Karvenagar and Stall 85 readable on a phone without zooming.
- Do not place critical text at the very top or bottom of 9:16 Story/Reel assets.
- Check that the Send Message button does not cover event details.
- Check Facebook Feed and Instagram Feed separately; their crops can differ.
- If any automated version hides the address, disable that specific enhancement or placement adaptation.

10. Tracking, Reporting & Attribution

Metric	Why It Matters	How to Review
Reach	Primary delivery KPI	Unique nearby people reached
Frequency	Controls reminder intensity	Target cap already set at 3 / 7 days
CPM	Efficiency benchmark	Compare future exhibitions against this test
Messages	High-intent response	Split by Messenger / Instagram / WhatsApp where available
Profile activity	Brand interest	Profile visits, follows, saves, shares
Placement spend	Quality control	Check whether Feed/Stories/Reels receive meaningful delivery
Walk-ins	Business outcome	Ask visitors how they heard about House of Bunkar
Sales	Commercial outcome	Tag sales source where practical

UTM - Use Only if a Website Destination Is Added

DYNAMIC UTM STRING

utm_source={{site_source_name}}&utm_medium=paid_social&utm_campaign={{campaign.name}}
&utm_content={{ad.name}}&utm_term={{adset.name}}&utm_placement={{placement}}&campaign_id={{campaign.id}}
&adset_id={{adset.id}}&ad_id={{ad.id}}

If the final ad opens messaging rather than a website, leave URL parameters blank. Meta can still report reach, frequency, CPM, message activity and placement delivery.

Simple Event Attribution

At Stall	Record
Ask	“How did you hear about us?”
Source options	Meta ad / PULA Bazaar page / Instagram organic / Facebook organic / Friend / Existing customer / Other
If purchase occurs	Add sale value and source tag
Post-event	Calculate attributed walk-ins, attributed sales and cost per attributed visit

11. Final Pre-Launch / Preparing-State QA

#	Control	Status / Action
1	Campaign objective = Awareness	PASS
2	Performance goal = Maximize reach of ads	PASS
3	One ad set with ₹300/day	PASS
4	Frequency cap = 3 impressions / 7 days	PASS
5	Gender = Women only; Age = 35-55	RECONFIRM hard controls in Audience section
6	Location = Karve Nagar / Mahalaxmi Lawns 10-12 km	RECONFIRM no India / Pune +25 mi broad location remains
7	Estimated audience = 1.6M-1.8M	HIGH - review geo/audience controls
8	Facebook Page = House of Bunkar	PASS
9	Instagram = @houseofbunkar	PASS
10	WhatsApp destination = +91 86001 34546	PASS
11	WhatsApp identity still shows Growthik +91 80557 54054	FIX if selectable
12	CTA = Send message	PASS
13	Existing event post selected	PASS
14	Conversation FAQs configured	PASS
15	Major placement previews render correctly	PASS based on supplied screenshots
16	Creative enhancements reviewed for cropping / overlays	REVIEW before final publish

FINAL V6 DECISION

The campaign is in a launchable structure, but the final control check should not be skipped. The two highest-priority items are: (1) confirm the ad set is truly Women 35-55 within the intended 10-12 km local catchment, because the 1.6M-1.8M estimate is unusually broad; and (2) align the WhatsApp identity with the House of Bunkar number if Meta permits. Once those are confirmed, keep the setup stable and monitor delivery rather than repeatedly editing it.

Posting & Tagging Execution

- Instagram: tag PULA Bazaar and Sonia Konjeti in relevant posts and Stories; verify exact handles before publishing.
- Facebook: tag Pula Ladies and PULA Bazaar where tagging is available.
- Cross-post / publish on PULA Bazaar surfaces where their social-media team has given access or approval.
- Use location: Mahalaxmi Lawns, Karvenagar, Pune.
- Keep Stall No. 85 visible in every final reminder.
- Organic reminder cadence: “This weekend” → “Tomorrow” → “Today” → “Last day”.
